Application Filed on 4/21/2005

Applicant: Jacek Marczyk

Title: A Process for the Creation of Fuzzy Cognitive Maps from Monte Carlo Simulation
Generated Meta Model

Art Unit: 2129

Examiner: Wilbert Starks, Jr.

March 26, 2007

Commissioner for Patents

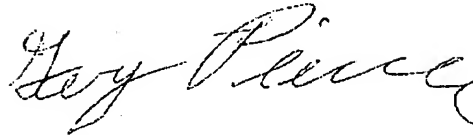

P.O. Box 1450

Alexandria, VA 22313-1450

SUMMARY OF TELEPHONE INTERVIEW OF MARCH 22, 2007

On March 22, 2007, Examiner Wilbert Starks, contacted Applicant's Counsel, by telephone, to discuss its issuance of its final office action in the above application. During the telephone interview, Applicant argued that, given that Examiner had agreed to perform certain actions prior to the issuance of its final office action, given that Applicant had relied on said agreement, and given that Examiner did not perform those "certain actions," the issuance of a final office action was premature and that the premature final office action should be withdrawn. After listening to Applicant's arguments, Examiner indicated that, although he did not perform those actions that he had agreed to perform, he would not withdraw his final office action and if Applicant disagreed with his decision, Applicant should file a petition with the PTO.

Respectfully submitted,

Gary Pisner, Esq. bar Id: 34096
